

# Microsoft 365 Business Voice

The phone system designed for small and medium business

## Built for productivity

Microsoft 365 Business Voice is a cloud-based phone system built-for productivity. It integrates into Microsoft 365 for an all-in-one communication solution that brings together calling, meetings, and messaging into a single application, [Microsoft Teams](#).

## All-in-one communication

Transform how work gets done by unifying calling, chat, and meetings in Microsoft Teams

## Calling from anywhere

Connect faster and easier wherever work takes you, on any device

## Modern phone system

Work confidently with a reliable, secure, and intelligent phone system designed for small and medium business

## Devices

For every work experience, for any space and any working style, there's a [Microsoft Teams device](#) to choose from. Having Teams UI on desk phone delivers a seamless Teams experience across a variety of certified devices. [Microsoft Teams Rooms](#) brings a modern, easy to use and consistent experience to all meeting spaces with one touch join and a rich set of AI enabled capabilities.

## Innovation built on a foundation of quality

Microsoft Teams is built for modern communications that ensure optimal audio and video experiences regardless of device or network. Organizations and users can work with confidence—on a platform designed with security, control and compliance.
